Instructions for
our visitors

Follow the instructions of our staff on all accounts. You may only enter the production areas at Automati c-Sys-teme Dreher GmbH with consent and – unless otherwise agreed – accompanied by our staff.

Wear suitable personal protective equipment in the pro-duction areas. You must wear safety shoes if you leave the marked route.

Find out where you are and the location of the closest escape routes and emergency exits. Do not move away from the staff members accompa-nying you without prior consultation.

In case of fire, immediately exit the building via the marked escape routes and proceed to the gather-ing point with our employees.

Contact our staff immediately in case of emer-gencies. Our qualified first aid assistants can help you.

Do not touch any systems, machines, other items or chemicals in the production facilities. Watch out for possible obstacles.

Never reach into machines or systems when they are in operation! Keep your distance and do not cross the cordons! There is a risk of impact and crushing, especially during trial and runs and commissioning.

Transport vehicles travel frequently through our production facilities, sometimes on the walkways as well. Move quickly to the side when a vehicle approaches.

Do not bring food or drinks into the production facilities.

Photography is only permitted on the entire com-pany complex by prior agreement.

Fire, naked light and smoking are absolutely pro-hibited in our premises. There are designated smoking areas available.
